DISHI PLATFORM

OFFICIAL BUSINESS MODEL & INSTITUTIONAL CONSTITUTION

The Operating System for Campus Meals, Agency Banking, Gig Escrow & Universal Inclusion

Executive Summary: DISHI is a homegrown African social enterprise and fintech ecosystem designed and engineered in Kenya to eradicate campus hunger, eliminate predatory payment friction, and provide dignified employment for youth. By turning campus cafeteria vendors into 0.5% commission-earning agency banking touchpoints, deploying sub-300ms encrypted offline NFC smart card hardware, providing 100% escrow protection for student food delivery (DeLiv) and skilled vocational gigs (Fundi), and pioneering radical universal accessibility for Blind, Deaf, and Mobility-gifted students, DISHI creates a safe, self-sustaining micro-economy for African educational institutions.

Document Type:	Comprehensive Business Model, Operational Framework & Legal Constitution
Entity Name:	DISHI Platform (Delstarford Works Ltd / DISHI Community Trust)
Headquarters:	Nairobi & Kakamega County, Republic of Kenya
Official Contact:	dishi@delstarfordworks.co.ke | https://dishi.delstarfordworks.co.ke
Governance Model:	Executive Wing (General Manager, Secretary, Treasurer) + 5 Departmental Leads
Target Phases:	Universities / TVETs -> Secondary Schools (Kakamega Pilot) -> Primary & JHS
Pilot Timeline:	Voluntary Incubation Phase (Through Jan 1, 2027) -> Compensated Scale Phase
Version / Release:	Version 1.0.1 (Institutional Production Charter)

CONFIDENTIALITY NOTICE: *The information contained in this document is confidential, proprietary, and legally privileged to DISHI Platform and Delstarford Works. Unauthorized distribution, copying, or disclosure is strictly prohibited.*

PART I: THE DISHI VISION, ECOSYSTEM & VALUE PROPOSITION

1.1 The African Renaissance: Technology Rooted in Radical Empathy

Across African tertiary and secondary learning institutions, students confront systemic friction that undermines their academic success and human dignity: volatile cellular connectivity in lecture halls, predatory transaction fees on micro-payments, long meal queues between lectures, and severe student food insecurity when personal pocket money depletes. Furthermore, students living with disabilities — the visually impaired, the hearing impaired, and those with physical mobility challenges — remain entirely unserved by mainstream commercial apps.

DISHI is an African startup conceived, architected, and manufactured on African soil to answer this urgent calling. DISHI is not a generic commercial food aggregator. It is a unified campus operating system that bridges physical, sensory, and financial divides through universal inclusion, hardware autonomy, and circular community wealth.

1.2 Pillar I: Radical Universal Accessibility & Dignity

- **Visually Impaired (Blind) Students:** Screen-reader-first architecture, auditory menu prompts, cafeteria staff acoustic chimes, and tactile NFC passes allowing complete autonomy from dorm room to dining hall counter without requiring sighted assistance.
- **Hearing Impaired (Deaf) Students:** High-contrast digital visual status screens, synchronized haptic vibration alerts upon meal readiness, and silent peer-to-peer meal gifting interfaces that eliminate noisy callout counters.
- **Mobility Challenged Students:** Wheelchair-height Point-of-Sale (POS) terminal placement at vendor stations and priority doorstep dorm delivery dispatch executed by peer student runners, bypassing steep stairways and architectural barriers.
- **Offline Smart Cards & IoT Terminals:** Ruggedized, low-power, solar-backup enabled IoT terminals running encrypted AES-256 local NFC tokens that process hot meal transactions in under 300 milliseconds even when campus fiber and cellular internet are completely severed.
- **Wearable Smart Food Pass:** Water-resistant DISHI smart wristbands enabling contactless tap checkout, discrete haptic balance prompts, and parent-regulated daily nutritional spend limits.

1.3 Pillar II: Verified Campus Gig Economy & 100% Escrow Protection

Universities are self-contained micro-cities where thousands of commercial transactions occur daily. DISHI transforms this concentration into structured youth employment through two core pillars:

1. **DeLiv (Food Delivery):** Student walking couriers (earning KES 40 - 70 per drop across hostels), bicycle transit runners, and youth bodabodas delivering hot cafeteria meals directly to hostel rooms, library desks, and off-campus bedsitters.
2. **DISHI Fundi:** A verified skills directory connecting talented student and town artisans (laptop/phone hardware techs, hostel barbers, hair stylists, plumbers, electricians, thesis formatters, and peer tutors) directly to campus demand.

The Escrow Guarantee: All DeLiv deliveries and Fundi service bookings utilize atomic Firestore escrow locks. Client funds are debited and safely held in the DISHI Escrow Vault prior to work commencement. Upon satisfactory delivery and client inspection, funds release instantly to the worker's wallet. In the event that a service provider or delivery rider fails to perform or never shows up, the client executes an instant **'Cancel & Refund'** action returning 100% of escrowed funds back to their active wallet balance without manual dispute delays.

1.4 Pillar III: Institutional Agency Banking & Vendor Float

Campus food vendors double as certified DISHI Banking Agents. Students deposit physical cash directly into their wallets at the counter. Vendors maintain E-Float via Safaricom M-PESA STK Push or accumulated daily food revenues. For every deposit, the vendor's float is debited, the student's balance is credited, and the vendor earns a guaranteed **0.5% instant cash-in commission** while parents receive immediate SMS receipts.

1.5 Pillar IV: Campus Harambee Crowdfunding & Gamified Rewards

To guarantee zero campus hunger, DISHI empowers students experiencing emergency financial hardship to launch verified Harambee campaigns. Peers, alumni, and sponsors fund micro-donations directly into meal allowances. Concurrently, the DISHI Arcade (12 custom games including Bite Ninja and Delivery Dash) allows students to convert game coins directly into KES 50 and KES 100 wallet credits.

PART II: ORGANIZATIONAL STRUCTURE & DEPARTMENTAL RESPONSIBILITIES

2.1 The Two-Tier Governance Model

DISHI operates under a decentralized, high-accountability structure consisting of the **Executive Wing** (strategic governance, treasury, investor relations) and five specialized **Operational Lead Departments** responsible for on-the-ground growth and ecosystem integrity.

Department	Core Mandate & Execution Responsibilities	Key Deliverables & KPIs
Student Leads ***Youth Growth & Ecosystem Safety***	• Drive student user acquisition, onboarding, and app store review collections. • Conduct physical institutional walkthroughs and onboarding pitch visits. • Safeguard a healthy, safe, harassment-free student ecosystem. • Lead peer accessibility support for students gifted differently (Blind/Deaf/Mobility). • Submit monthly operational reports to the Executive Wing.	• Active student signups & MAU. • Positive Play Store app ratings. • Institutions onboarded per term. • 100% timely monthly reports.
Parent Leads ***Parent Engagement & Meal Assurance***	• Onboard parents onto the DISHI Parent Portal and mobile application. • Train parents on M-PESA meal allowance funding and real-time SMS receipts. • Address parent inquiries, allergen monitoring concerns, and spend transparency. • Educate parents on how digital meal allowances prevent money diversion.	• Active parent accounts linked. • Recurring monthly allowance volume. • Parent trust & satisfaction index. • Zero unresolved parent tickets.
Vendor Leads ***Cafeteria Operations & Agency Banking***	• Onboard campus cafeteria kitchens, tuckshops, and surrounding eateries. • Train vendor staff on POS terminal usage, menu editing, and offline NFC scanning. • Manage vendor float liquidity: guide vendors on M-PESA STK float top-ups. • Monitor vendor 0.5% deposit commission reconciliations and instant B2C cashouts.	• Number of active vendor terminals. • Vendor float balance availability. • Daily order fulfillment rate. • Terminal uptime > 99.5%.
Fundi Leads ***Artisan Verification & Escrow Quality***	• Scout, vet, and onboard campus and town skilled artisans (techs, barbers, salons, plumbers). • Verify Fundi identity, certifications, rate cards, and background legitimacy. • Oversee gig escrow compliance and assist in rapid dispute mediation. • Organize vocational skill showcases and rate card standardization.	• Number of verified active Fundis. • Completed gig volume per month. • Escrow dispute rate < 1.0%. • Average artisan review > 4.5/5.0.
Driver / Courier Leads ***DeLiv Logistics & Dispatch***	• Recruit, register, and onboard student walking runners, cyclists, and boda riders. • Map campus zones, dorm delivery drop points, and library dispatch hubs. • Supervise priority accessible delivery for wheelchair and sickbay students. • Monitor courier delivery times, route safety, and thermal bag hygiene.	• Active couriers on campus shifts. • Average delivery time < 18 mins. • 100% successful doorstep drops. • Rider payout satisfaction.

2.2 The Executive Wing & Specialized Pitch Team

1. General Manager / Executive Director: Holds overarching operational and legal stewardship of DISHI, ensuring synergy across all departments, executing university MOUs, and driving regional expansion.
2. Secretary: Custodian of institutional documentation, legal records, monthly departmental submissions, board minutes, and regulatory compliance.
3. Treasurer: Oversees escrow accounting, M-PESA B2C/B2B disbursements, vendor agent commission audits, payroll administration, and institutional bookkeeping.
4. External Affairs & Investor Pitch Team: A dedicated elite unit responsible for representing DISHI at technology conferences, university innovation weeks, hackathons, and venture pitch forums. This team is actively tasked with drafting grant proposals, securing non-dilutive impact funding, and negotiating concessionary small business development loans.

PART III: INSTITUTIONAL ROADMAP & COMPENSATION STRUCTURE

3.1 Phased Institutional Rollout Strategy

DISHI deploys a targeted, geographically sequenced expansion model designed to capture maximum institutional density before expanding outward.

Rollout Phase	Target Institutions & Geographic Scope	Operational Execution Focus
Phase 1: Tertiary Flagships ***(Current Pilot)***	Public and private universities and TVET colleges in Western Kenya & Nairobi (MMUST, UoN, Kenyatta University).	Prove unit economics, validate 0.5% vendor agent float model, scale DeLiv couriers and Fundi gig marketplace.
Phase 2: Secondary Schools Pilot ***(Kakamega County Focus)***	Boarding and day secondary schools across Kakamega County (Kakamega High, Butere Girls, Mukumu, St. Peter's Mumias).	Onboard school canteens as cash-free DISHI NFC tap stations. Deploy smart cards for cashless pocket money, eliminating student cash theft and giving parents real-time meal spend control.
Phase 3: National Secondary Scale	Tier-1 and Tier-2 secondary schools across Western, Nyanza, Rift Valley, Central, and Coast regions.	Partner with County Education Boards and School Principals' Associations for standardized school canteen digital cash-in.
Phase 4: Primary & Junior High	Primary schools and newly established Junior High Schools (JHS) throughout Kenya.	Deploy simplified NFC wearable bands for younger learners, ensuring safe meal distribution, balanced nutrition tracking, and zero cash handling on school grounds.

3.2 Two-Stage Compensation & Voluntary Incubation Policy

To establish authentic institutional grounding, lean operational resilience, and mission-aligned leadership, all appointed Departmental Leads and executive officers enter DISHI under a structured two-stage commitment framework:

• **Stage 1: Voluntary Incubation Phase (2 Months up to January 1, 2027):** All departmental leads, executive members, and campus ambassadors serve in a voluntary capacity. This incubation period is dedicated to stress-testing campus operations, establishing vendor float trust, gathering initial student review metrics, and achieving critical transaction mass. Leads build documented leadership equity during this phase.
• **Stage 2: Compensated Professional Scale (From January 1, 2027 Onward):** Upon successful completion of the voluntary incubation milestone, all active Departmental Leads transition into structured monthly salaries ranging from **KES 5,000 to KES 10,000** per month. Salaries are disbursed directly to leads' verified M-PESA wallets, funded through accumulated transaction micro-commissions, agency banking margins, and secured external grant disbursements.

3.3 Monthly Accountability Reporting Mandate

Every departmental lead is mandated to submit a formal **Monthly Performance & Ecosystem Audit Report** to the Secretary and General Manager on or before the 28th of each calendar month. Continuation of office, performance bonuses, and January salary qualification are strictly contingent upon the timely delivery and qualitative excellence of these monthly reports.

PART IV: BUSINESS MODEL, UNIT ECONOMICS & REVENUE STREAMS

4.1 Multi-Stream Revenue Architecture

DISHI captures automated micro-margins across every transaction node within the institutional ecosystem:

Revenue Stream	Pricing & Fee Mechanics	Volume Driver & Scalability
Parent Meal Allowance Deposits	Flat KES 9.00 micro-fee on automated parental M-PESA STK Push top-ups.	Scales linearly with recurring parental weekly and monthly allowances.
Agency Cash-In Spread	Vendor earns 0.50%; DISHI network retains 0.25% - 0.50% back-end float fee.	Driven by physical counter cash deposits across 120+ vendor touchpoints.
DeLiv Courier Platform Fee	KES 10.00 platform facilitation fee per food delivery drop (rider keeps KES 40-70).	Tens of thousands of daily lunch, dinner, and late-night study drops.
Fundi Escrow Facilitation	Flat KES 3.00 (student gig) or 1.5% (commercial artisan repairs) escrow fee.	Covers tech repair, barbering, beauty, plumbing, and academic tutoring.
Vendor & Rider B2C Payouts	Standard tiered Daraja B2C disbursement fee when vendors/riders cash out to M-PESA.	Daily evening earnings withdrawal cycles across all campus merchants.
Harambee Campaign Micro-Fee	Flat KES 3.00 micro-contribution fee on verified peer meal crowdfunds.	Communal solidarity micro-giving during exams and month-end crunches.
Arcade & Game Store	Sponsored tournament entries, premium powerups, and branded challenges.	Campus youth engagement and brand promotional activations.

4.2 Monthly Unit Economics: Single Campus Prototype (10,000 Students)

In a standard Kenyan university campus with 10,000 enrolled students and 40 cafeteria vendor agents:

• **Parent Deposits:** 6,000 active students funded twice monthly @ KES 9.00 = **KES 108,000**

• **Vendor Agency Float:** KES 4,000,000 monthly cash deposits @ 0.25% DISHI net = **KES 10,000**

• **DeLiv Food Deliveries:** 1,500 drops weekly (6,000 monthly) @ KES 10.00 platform fee = **KES 60,000**

• **Fundi Gigs:** 800 monthly campus repair/service jobs @ KES 25.00 average fee = **KES 20,000**

• **Vendor B2C Cashouts & Others:** Merchant and courier withdrawals = **KES 15,000**

TOTAL PROJECTED MONTHLY GROSS REVENUE PER CAMPUS: KES 213,000

• *Operating Costs:* 5 Departmental Leads @ KES 8,000 avg (KES 40,000) + Server/SMS/APIs (KES 18,000) = KES 58,000

NET MONTHLY CASH SURPLUS PER CAMPUS: KES 155,000 (72.7% Operating Margin)

PART V: THE OFFICIAL CONSTITUTION OF DISHI PLATFORM

ARTICLE I: NAME, REGISTERED OFFICE & PHILOSOPHY

Section 1.01 (Name): The organization shall be formally known as **DISHI Platform** (hereinafter referred to as 'DISHI' or 'The Platform').
Section 1.02 (Motto): *'Designed & Created in Africa • Radical Empathy • Universal Dignity.'*
Section 1.03 (Office): The principal registered office shall be located within the Republic of Kenya, with primary innovation desks in Nairobi and Kakamega County.
Section 1.04 (Philosophy): DISHI is founded upon the African concept of *Utu* and communal solidarity. Technology must serve human vulnerability, eradicate poverty, and include all people regardless of sensory, physical, or economic status.

ARTICLE II: OBJECTIVES & MANDATE

The primary constitutional objectives of DISHI shall be:
1. To eradicate campus hunger and food insecurity through transparent digital meal banking and communal Harambee crowdfunds.
2. To provide unhindered accessibility and dignified dining for students gifted differently (Blind, Deaf, Mobility-impaired).
3. To empower local cafeteria vendors through institutional agency banking float and guaranteed 0.5% cash-in commissions.
4. To generate sustainable student and youth employment via escrow-protected campus deliveries (DeLiv) and vocational services (Fundi).
5. To engineer affordable, ruggedized, solar-backed offline IoT and NFC hardware tailored for African campus infrastructure.

ARTICLE III: ORGANS OF GOVERNANCE & OFFICERS

Section 3.01 (The Executive Wing): Shall comprise the General Manager, the Secretary, and the Treasurer. The Executive Wing holds ultimate fiduciary, legal, and operational authority.
Section 3.02 (The Operational Directorate): Shall comprise the five specialized Departmental Leads:
(a) Student Lead (b) Parent Lead (c) Vendor Lead (d) Fundi Lead (e) Driver/Courier Lead.
Section 3.03 (External Affairs Team): Shall be appointed by the Executive Wing to represent DISHI at investor conferences, hackathons, and grant application forums.
Section 3.04 (Tenure & Appointment): Departmental Leads shall be appointed on renewable one-year mandates based upon operational merit and compliance with monthly reporting requirements.

ARTICLE IV: CODE OF CONDUCT & COMMUNITY SAFEGUARDS

Section 4.01 (Integrity): Any officer, lead, or agent who misappropriates platform funds, falsifies float balances, or engages in financial misconduct shall face immediate expulsion and legal prosecution.
Section 4.02 (Non-Discrimination): DISHI enforces zero tolerance for harassment, tribalism, or discrimination. Absolute priority of care shall be accorded to students gifted differently.
Section 4.03 (Escrow Sanctity): Client funds in escrow are sacrosanct. Neither DISHI nor workers may divert escrowed funds prior to verified task completion. In case of non-fulfillment, funds must be refunded immediately to the student.

ARTICLE V: FINANCIAL GOVERNANCE & REMUNERATION

Section 5.01 (Voluntary Period): All appointed leads shall serve voluntarily for the foundational 2-month period ending January 1, 2027.

Section 5.02 (Compensated Era): Effective January 1, 2027, confirmed leads in good standing shall receive a monthly honorarium of KES 5,000 to KES 10,000, payable on the 1st of each month.

Section 5.03 (Audit & Reserves): The Treasurer shall maintain immutable audit trails of all transaction fees, escrow releases, and float commissions. A minimum of 20% of net platform revenues shall be reserved in the DISHI Community Trust Pool for emergency student meal subsidies and hardware maintenance.

ARTICLE VI: AMENDMENTS & RATIFICATION

This Constitution may be amended by a two-thirds majority vote of the Executive Wing in consultation with the Departmental Leads Council. Ratified and sealed on this 18th day of October, 2026, at Nairobi, Republic of Kenya.

PREPARED & RATIFIED BY:
